

40/60/90/95 Gallon Roll-Out Containers

PRODUCT INFORMATION

PRODUCT DESCRIPTION

The 40, 60, 90 and 95 gallon Automated Roll-Out Containers are designed for easy pickup by all fully automated trucks. This reduces labor and injury costs and increases speed and efficiency because the driver never has to leave the cab. No additional workers are required for pickup. All four containers can be lifted by the same automatic lifter without additional adjustment.

Rotomolded of tough polyethylene, the containers can withstand the harshest of treatment, are resilient to tearing and cracking, and will still look good after years of use. A built-in ultra-violet agent prevents the containers from becoming brittle and ensures years of use under the hot sun.

These Roll-Out Containers never need to be painted and will not crack, dent, or rust. Smooth inside walls ensure refuse is dumped cleanly to stop call backs.

60 Gallon

90 Gallon

PRODUCT DESIGN

Refuse containers operate in challenging environments, where they must survive lifting mechanisms, over-filling, dropping, and abuse. Rotomolded containers are tougher than injection molded containers because extra material is built into critical wear areas for additional durability. These stronger areas minimize cracking and splitting, which translates into a longer service life.

The lid is lightweight for easy opening, stays open for loading convenience, and closes automatically with minimal noise when set back on the ground after dumping. Domed top and sloping edges help prevent moisture from entering the container, keeps odors inside, and critters outside.

Axle positioned for easy tilting and rolling with heavy loads.

40 Gallon

Specifications

Container	Height	Width	Depth	Shipping Weight	Wall Thickness	Load Rating	Wheel Diameter
40 Gallon	33"	25"	24"	20 lbs.	0.1875"	150 lbs.	10"
60 Gallon	40"	28"	32"	29 lbs.	0.1875"	220 lbs.	10"
90 Gallon	43"	31"	35"	42 lbs.	0.1875"	325 lbs.	10"
95 Gallon	45.5"	31"	32"	43 lbs.	0.1875"	335 lbs.	10"
All	Standard Colors: Black, Blue, Green Other colors available upon request.						

300 Gallon Refuse Container

PRODUCT INFORMATION

PRODUCT DESCRIPTION

The 300 Gallon Refuse Container is the ideal automated container for apartments, light commercial, or for several families sharing an alley collection. Rotomolded of tough cross-linked polyethylene, the container can withstand the harshest of treatment, is resilient to tearing and cracking, and will still look good after years of use. A built-in ultra-violet agent prevents the container from becoming brittle and ensures years of use under the hot sun.

The 300 Gallon Container never needs painting and will not crack, dent, or rust. Smooth inside walls ensure refuse is dumped cleanly to stop call backs. Front lid is easily replaced with other colors to designate refuse, recycling or green waste collection.

PRODUCT DESIGN

Refuse containers operate in challenging environments, where they must survive lifting mechanisms, over-filling, dropping, and abuse. Rotomolded containers are tougher than injection molded containers because extra material is built into critical wear areas for additional durability. These stronger areas minimize cracking and splitting, which translates into a longer service life. The 47 inch loading height makes it easy to load.

Split Lid

The double-wall, split lid is lightweight for easy opening, stays open for loading convenience, accommodates large bags, and closes automatically with minimal noise when set back on the ground after dumping. Domed top and sloping overlapped edges help prevent moisture from entering the container, keeps odors inside, and critters outside.

Rugged Hinges

Lid attachment has four "molded-in" hinge holes designed to add strength to the container and minimize damage to hinge area.

Lid Stays Open

Lid rotates 110° for easier loading, dumping, and independent closing, after container is emptied.

Specifications

Weight: 90 pounds assembled
Height: 53 inches (47 inch loading height)
Width: 53 inches
Capacity: 300 gallon
Standard Colors: Black, Dark Green
Custom Colors: Available upon request
