

Material Handling Bin #990033

Dura-Cast Material Handling Bins are constructed out of FDA compliant high-density polyethylene resin. These containers deliver four-way lift truck access in a pallet-less bulk container design. For smart returns, the containers nest five- to seven-high; molded nesting ribs prevent units from jamming. Bases for rotating-head dumpers, casters, fork pockets, and various custom options are also available.

Bin #990033 is a 1.2 Cubic Yard Model (26.04 bushel). This cart features a two way entry and measures 45" x 45" x 34" high.

Cart is shown customized with optional spreader plates and casters.
