Bulk Linen Truck Series BLT 70, 72, 74 & 38

PRODUCT DESCRIPTION

The Bulk Linen Truck Series is fully assembled so they are ready to put into service as soon as they arrive. They are manufactured of tough polyethylene and are designed for a long and virtually maintenance free life. Each truck is designed to fit through standard doors and be lifted by cart dump machines. They can be used almost anywhere and come in variety of colors. The top flange provides the additional strength to hold up under the heavy load and minimize truck distortion.

The one-piece polyethylene rotomolded base provides the strength and flexibility to withstand those jarring moments when the truck runs into immovable objects. The Poly Base will not rust and is not subject to corrosion. Stainless steel hardware utilizes bolt-through construction for added strength of the truck body, Poly Base and casters.

BLT 70

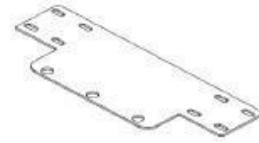

BLT 72

Ergonomically placed hand holes ensure better truck control under both load and unloaded conditions. Dura-Cast is meeting customer demand for ergo-friendly products by designing this truck for easy loading and unloading. Spring loaded platforms can be added to permit optimum access to goods by adjusting the height according to the weight of the load.

These good-looking trucks are built for utility and ruggedness. Optional mold-in graphics permit you to uniquely identify your unit and proudly display your company's name and logo. Optional stenciling provides shorter term identification or tare weights.

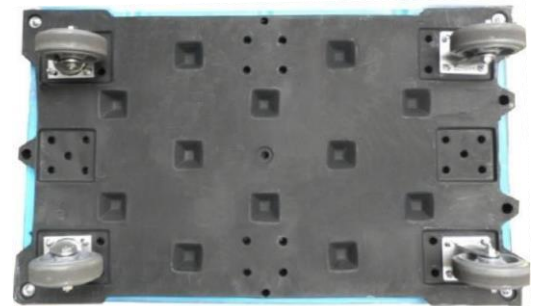

SPECIFICATIONS - ALL BLT TRUCKS

	Capacity Cu. Ft	Dimensions L- W-H	Weight (Lbs.)	Caster Size
BLT 70	37	48" X 29" X 57"	110	6" x 2"
