## Housekeeping Metro Cart Part #402190

The Engineering team at Dura-Cast collaborated with professionals in the hospitality industry to design a housekeeping cart that is attractive, ergonomically correct, and allows for increased efficiency.

The Housekeeping Metro Cart is easy to maneuver and is designed to keep all components well-organized; it features a higher storage capacity than traditional housekeeping carts, with space for supplies to service up to 15 rooms. The lower compartments on the top of the cart make it more easily accessible for staff members of all heights. The stainless steel pull bar has been mounted vertically to increase the ease of use for all employees, regardless of stature. With tool bars to keep mops and brooms organized, vacuum cleaner brackets, and a specialized drip tray, this cart was designed with amenities that you won't find on any other cart on the market.

The Housekeeping Metro Cart provides a solution that is durable, lightweight, and well-designed, providing the hospitality industry with an effective tool for your workforce.
